AUSTRALIA THROUGH BIRDWATCHER'S EYES

where we observe, which birds we report, and how citizens contribute

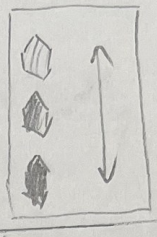

01 | Where do our records reach?

citizen-science observations build a shared picture of Australia

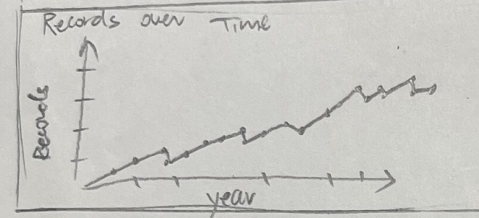

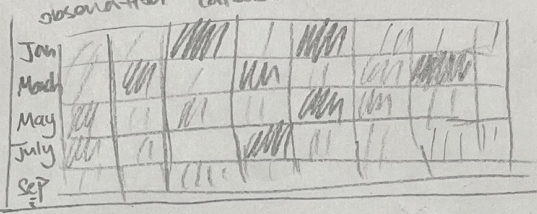

Time Period

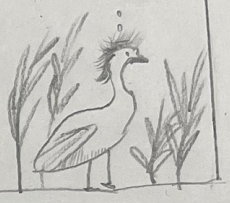

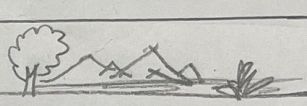

observation calendar

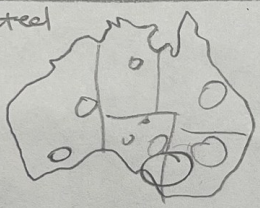

02 | which birds are reported where?

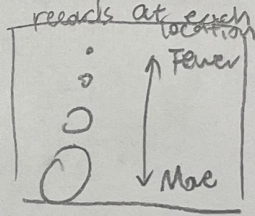

Explore a selected bird

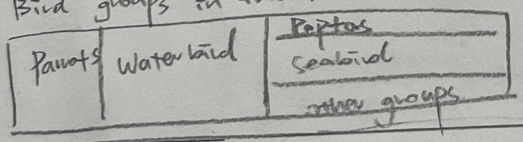

Species

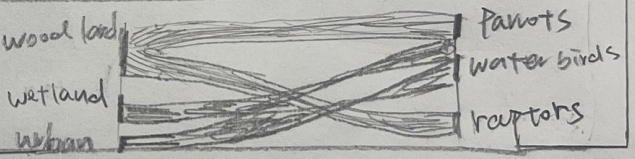

Bird activity changes through the year — and across Australia.

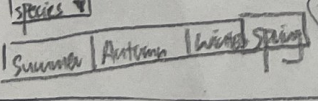

Bird groups in the records.

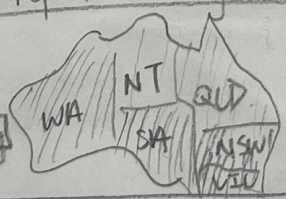

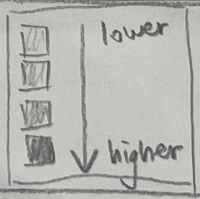

03 | How do reports change with the seasons?

seasonal Reporting rate

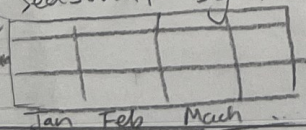

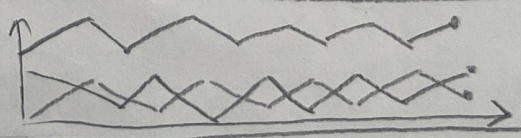

Same environments
New possibilities
every season.

Same places different seasons different stories

Seasonal signatures.

04

The people behind the picture

How does community participation support wildlife research?
